Austin ISD

TWILIGHT PROGRAM

Credit recovery. Grade repair. Attendance make-up.

CREDIT RECOVERY

Credit Recovery is a TEKS align program for Austin ISD students who failed a required course for graduation. Options can be teacher-led or computer-based.

Teacher-led Credit Recovery

Students will receive support from caring and knowledgeable teachers before/after school and/or Saturdays.

Computer-based Credit Recovery

Students are enrolled in computer-based course(s) needed for graduation before or after school.

Self-paced coursework is available to students 24/7. Students requiring more than one course may begin the next course upon completion of the first course without having to wait for a new grading cycle to begin.

GRADE REPAIR

Available to Austin ISD students who need to recover a failing grade from a past grading cycle and/or current school year.

Assigned work is individualized and aligned with TEKS utilizing written and digital curriculum as an instructional option for students.

The campus's Twilight lead works with the student's teacher of record to determine required work/assessments for the student to repair the grade for a given grading cycle.

Twilight teachers provide academic support for students attending Twilight.

Students may continue to work on grade repair during the school day with Principal approval.

ATTENDANCE MAKE-UP

Austin ISD high school students attending Twilight for attendance make-up may work on grade repair, credit recovery, or make-up work for their classes.

High school students can make up attendance for the current or past semester(s).

To account for successful attendance make-up for current or past semesters, the Twilight lead on each campus will work with the campus registrar.

Tutorial Support

(6th grade on elementary campuses only) Tutoring is offered to students who struggle with classroom assignments and assessments.

PROGRAM OVERVIEW

Twilight Program provides Austin ISD elementary (6th grade), middle, and high school students options for credit recovery, grade repair, and attendance make-up. The program assists students who are at risk by offering support during morning/after school extended hours, including Saturdays at some schools. The student must meet with their respective school counselor, who will refer the student for the Twilight program according to what needs to be recovered.

REFERRAL | Counselor and/or teacher initiates referral
