

Business Partners Providing Work-based Learning Opportunities

This list outlines business and industry partners that are working with the Austin Independent School District Career & Technical Education (CTE) Department for the 2024-25 school year. Each company provides work-based learning opportunities to students in CTE Programs of Study such as internships, hands-on work experiences, and job shadowing. The business partners are listed by TEA Cluster Areas, however several partners serve multiple clusters and [Programs of Studies](#).

Prior to students working with business and partners, classroom instruction in workplace readiness skills are provided by CTE teachers in aligned Programs of Study, including coherent sequences of courses, industry-based certifications, and hands-on real world learning experiences to ensure students are prepared for in-demand, high-skill, high-wage careers post graduation.
