

## 2011-2012 AISD Student Climate Survey Cunningham Elementary School

Research indicates that school climate can either be a positive influence on students' learning environment, or can serve as a significant barrier to students' learning. Indeed, students attending high performing, higher economically disadvantaged schools reported higher ratings of behavioral environment, academic self-confidence, teacher expectations for student learning, and student engagement in 2010-2011 than did their peers at lower performing similar schools. Similarly, students attending high performing, less economically disadvantaged schools reported higher ratings of behavioral environment than did their peers at lower performing similar schools in 2010-2011.\*

The following tables show the total number of surveys students at Cunningham returned in 2011-2012 (Table 1) and the response rate by grade (Table 2).

**Table 1. Number of Respondents for:**

	Cunningham	All Elementary Schools
# of surveys returned	196	18,352
# of students	207	20,849
% of students represented	95%	88%

**Table 2. Response Rate by Grade for Cunningham, 2011-2012**

grade	# of students enrolled	# of responses	response rate
3rd grade	71	65	92%
4th grade	59	56	95%
5th grade	76	72	95%
6th grade	1	0	0%

Note. Students' grade level was self-reported. Population data reflect enrollment as of the PEIMS snapshot date in October 2011.

Figure 1 depicts Cunningham's average student climate survey ratings for 2011-2012, compared with average ratings across all Elementary Schools in 2011-2012. Scores over 3.0 are desirable, as indicated by the green line. Please note the green and red text boxes that highlight the specific area in which Cunningham most excels, as well as the area in which Cunningham can improve most.

Figure 1. Student Climate Survey Subscales for Cunningham and all Elementary Schools, 2011-2012

Cunningham's highest score on the 2011-2012 Student Climate Survey was for teacher expectations, which measures student perceptions of their teachers' expectations. Please think about what your campus does to foster high expectations, and share your strategies with others.

Cunningham's lowest score on the 2011-2012 Student Climate Survey was for behavioral environment, which measures the extent to which students respect each other, follow the rules, and feel safe at your campus. Higher ratings of behavioral environment have been associated with academic achievement. For resources on how to improve your campus' behavioral environment, please visit AISD's Child Study System website: <http://www.childstudysystem.com>

The following pages contain more detailed information regarding Cunningham's student climate results from 2009-2010 to 2011-2012. Please review the individual items on each subscale with particular attention to how Cunningham's average ratings have changed or remained consistent over time. Please note that some subscales have changed from previous years, making longitudinal comparisons inappropriate for some items and subscales. For items and subscales where longitudinal data are available, statistically meaningful changes are noted with up or down arrows. Please share the results of this report with all campus staff and your Campus Advisory Council to inform campus improvement planning.
