RESULTS OF THE AISD HIGH SCHOOL EXIT SURVEY CLASS OF 2008

TRAVIS HIGH SCHOOL

The sixth annual AISD High School Exit Survey was administered online¹ to seniors in every AISD High School during the Spring of 2008. This report contains the results for the Travis High School Class of 2008. Where available, longitudinal data and the average results from all AISD high schools are presented alongside results for Travis for comparison purposes. In total, 3,192 students in the Class of 2008 completed the survey, including 208 students from Travis. Longitudinal tests for statistical significance were conducted with district-level data (see district-level report).

Table 1. High School Exit Survey Response Rates, Classes of 2005 to 2008

	Percentage of Enrolled Seniors Responding ²			
	Class of 2005	Class of 2006	Class of 2007	Class of 2008
Travis	99.6%	83.5%	90.1%	67.3% ↓
All High Schools	85.3%	86.0%	82.0%	74.8% ↓

Student responses are organized into seven general topics areas: Open-Ended Comments; Postsecondary Intentions and Family Support; High School Experiences, Campus Climate, and Civic Engagement; Instruction and Technology; Postsecondary Preparation and Advising; and Final Thoughts. Some notable trends at this campus include:

- **Counseling and advising.** Travis seniors gave high ratings to their advisors and school counselors, particularly their Project ADVANCE counselor than did seniors district-wide. A higher percentage of Travis students participated in college preparation programs than did AISD seniors overall.
- **Extracurricular activities and student employment.** Travis seniors appeared to have participated in fewer extracurricular activities both in and out of school and a higher percentage of students reported that they did not work during their senior year or the summer of 2007 than did AISD seniors as a whole.

¹ Facilitators on each campus, primarily *Project ADVANCE* counselors, were responsible for ensuring that all graduating seniors were given the opportunity to complete the survey. Because the survey could only be administered on campuses, students with poor attendance during the 6th reporting period may have missed their opportunity to take the survey.

² Corrected response rate is 81.9% (see Appendix in district-level report for detailed information about response rates for 2008). Response rates are based on enrollment during the sixth 6-week reporting period. Due to the enrollment of some special education seniors with severe cognitive disabilities, a 100% uncorrected response rate was not expected.

- **Technology and computer use.** It appeared that Travis seniors had somewhat lower access to computers and high speed Internet at home than did AISD seniors overall; however, they reported high use of the computer at home and at school. High percentages of Travis seniors reported that their teachers used electronic resources effectively and that they would have liked to use more electronic communication and resources at school.

INDIVIDUAL ITEM RESPONSES FOR TRAVIS HIGH SCHOOL

OPEN ENDED COMMENTS

The first item on the survey is open-ended so that students have the opportunity to give feedback to district administrators before they have received any prompts or exposure to the broad themes within the survey. The responses below are to the question, “*What is the ONE thing that you especially want the administration of AISD to know?*”

One hundred and two Travis students (49%) provided a response³. Students made many general comments about the experiences they had at Travis or mentioned their future plans or talked about their personal characteristics. Commonly identified themes expressed by the Class of 2008 include:

- **Project ADVANCE.** Students provided many positive comments about the college counseling at Travis, particularly the information and services provided by Project ADVANCE: “*project ADVANCE has good workshops at night for parents and students;*” “*That the scholarship programs at Travis are extremely helpful through the go center and project advance;*” “*project ADVANCE help(ed) me with acc collegeconnection(s).*”

- **Teachers and ESL.** There were a noteworthy number of positive comments about the supportive teaching staff at Travis; however seniors also noted a need for more Spanish-speaking staff and a need for more ESL classes. “*Travis H.S has wonderful teachers that care for education of their students;*” “*Many of my teachers did a great job in getting most of there students to apply for colleges and did what they could to help in any way possible*”. Another student said “*Teachers at Travis really do help their students out and help them advance to the next level.*” Several students commented “*Travis need more spanish speaker teachers;*” “*we need more ESL teachers;*” “*well i think they shoild help more to the ESL students, to learn more English.*”

- **Block scheduling.** There were a moderate number of uniformly negative comments about block scheduling: “*I just want to let them know that our block schedules are one of the most ridiculous procedures in order to get more kids to come to school. There should have been a different approach;*” “*That block scheduleing should not be aloud;*” “*BLOCK SCHEDULE ISN'T BENEFICIAL AT ALL, AND WE SHOULD HAVE AT LEAST HAD MATH EVERYDAY.*”

³ All student quotes are taken directly from the survey, as typed in by the students. Examples are given to illustrate common themes.

FINAL THOUGHTS

Figure 12. What Is the One Thing That Was Most Important to Keeping You Going Through School All The Way to Graduation? (Item 46)

Note. The wording of two response options was changed from previous years' surveys. In 2008, students were asked to rate "Supportive staff" whereas last year they reported on "Supportive teachers;" and the prior option, "Team/club activities" was split into "Clubs/extracurriculars" and Sports/athletics.
